

Forums

To use the Forums in Agoria you must have a USERNAME and you can check whether or not you have one by clicking on the Menu Item that shows the Security Settings.

Security Settings

Username and Password	Profile Security	Guide Notes
Username and Password Settings		
Username:	<input type="text"/>	(Optional - Minimum 6 Characters - use this or your email address as a username)
Password:	<input type="password"/>	Minimum 6 Characters
Confirm Password:	<input type="password"/>	Minimum 6 Characters
Note:	The username and password must be at least 6 characters long and is not case sensitive. You can also sign in using your preferred email address instead of a username.	
<input type="button" value="Save Changes"/> <input type="button" value="Reset"/>		

You can login to your Agoria system using the e-mail address of your account; however you can't access the forums **without** a username. In a forum this is sometimes called a variety of things, e.g. 'Handle', 'Screen Name', 'Friendly Name' and even 'User'.

If the Username in the security settings is blank, then you must create one. This can be anything you like and is attached to your account. Something like 'Roger P' might be a choice? If this is not available, then think of another.

When you have a Username, the system will allow you to post messages, subscribe to threads and posts.

When you subscribe to a thread or post, the Forum will automatically send you an e-mail when a new comment is made. This way you don't have to look to see if a post has been made - the Forum will tell you.

Forum Lists and Posts

Forums are normally started by a moderator and once started, anyone with permission can post to the Forum and Subscribe to the Forum (all Messages) or to Posts (messages in that thread).

Agoria - uses and abuses

Display: Threads per page [start](#) [subscribe](#)

Displaying 1-2 of 2

Thread	Subscribe	Started By	Started	Posts	Latest	View
Problem with the template layout		Panton	11 Jul 2012	3	14/Aug/2012	
Not enough colours in the layouts		Panton	14 Aug 2012	1	14/Aug/2012	

[1-2](#)

Forums are used to facilitate an exchange of views but only users with access to the forum can post and there are good reasons for this:

- It keeps the threads relatively private
- It stops the possibility of Flame Wars

Forums are not public. However, you should not expect anything you write on a Forum to be absolutely confidential as anyone else present on the Forum can disclose the contents of the Forum to others outside the Forum.

If you notice bad language or behaviour, you should Report the Thread. Your report message is sent to the moderator for assessment. The moderator can remove an entry if judged to be unsuitable.
